

## **Peace Funerals price guide**

### **Area 1**

Each funeral that we arrange is different and is tailored to your needs. So that you can get a realistic idea of what the funeral of your choosing will cost we have assembled some packages on the following pages.

All of the packages can be adjusted by adding, or removing, items. On the final pages of this price guide, you will see the costs associated with making any changes.

### **Cost of funeral plans**

If you are not organising a funeral now but want instead to tailor a funeral plan to meet your own individual requirements, you can still use this price guide. Once you have worked out the price using the guide, you then need to add a further £470 to get the funeral plan cost. The extra charge is to pay for certain price guarantees included in your plan and for the cost of administering your plan over its lifetime.

# Bespoke Funeral

When you're trying to arrange a funeral that is quite different or alternative

Prices from **£P.O.A.**

## Details

If a different type of funeral is your wish, we will do our very best to help you achieve it. Peace Funerals have been supporting families for over 23 years to create special funerals which reflect the personality and interests of the person who has died.

Our team of experienced, creative, problem-solving professionals will help you to design and implement a funeral that feels fitting and personal.

From funerals where the last journey is on a steam hauled train, to those where the burial takes place on the family's own land. Or ceremonies in different types of venue; or funerals based on a theme (a pastime or sport); or where the family provide their own vehicle for the coffin, whatever your wishes, we can help.

When nearly all funerals that took place were black cars, traditional coffins, and vicars, Peace Funerals broke the mould and made new choices available. If you want something different, allow us to use our experience to help you.
