If you are not organising a funeral now but want instead to tailor a funeral plan to meet your own individual requirements, you can still use this price guide.

Once you have worked out the price using the guide, you then need to add a further £500* to get the Funeral Plan cost. The extra charge is to cover the £250 admin fee and an inflation cushion.

Natural Burial

An easily adaptable package that includes burial in a natural burial ground of your choosing.

If you want your passing, or that of a loved one, to bring some benefit to the environment, then natural burial is a great choice. Natural burial grounds have a much less manicured appearance than traditional cemeteries as they are managed to encourage wildlife.

We have more experience of providing natural burial services than any other funeral director in the region.

There are now a number of places in the region where you can have a natural burial. The price on this page includes burial in the South Yorkshire, Golden Valley or Apperknowle Natural Burial Grounds and assumes that you already own the rights to a grave. The price for the same package including the cost of the burial rights to a new 'no tree plot' is £3895-£4145.
